

Tentative Program
Workshop on Bio-inspired Robotics
24 June 2017
Century Park Hotel Bangkok, Thailand

.....

Time	Program
9.00-9.30 hrs.	Registration
9.30-10.15 hrs.	Presentation on “How to build biomechanics and brain-like mechanisms for robots” by Mr. Poramate Manoonpong, Ph.D., Associate Professor of Embodied Artificial Intelligence (AI) & Robotics, University of Southern Denmark
10.15-10.45 hrs.	Refreshments
10.45-11.30 hrs.	Presentation on “From artificial hormone to artificial intelligence” by Mr. Pitiwut Teerakittikul, Ph.D., Assistant Director for Student Affairs, Institute of Field Robotics (FIBO), King Mongkut’s University of Technology Thonburi
11.30-12.30 hrs.	Lunch
12.30-13.15 hrs.	Presentation on “Locokit: A versatile robot construction kit for studying locomotion systems” by Mr. Jørgen Christian Larsen, Ph.D. Assistant Professor of Embedded Electronics University of Southern Denmark
13.15-15.00 hrs.	Workshop on “Building a dog robot from Locokit” by - Mr. Poramate Manoonpong, Ph.D., Associate Professor of Embodied Artificial Intelligence (AI) & Robotics, University of Southern Denmark - Mr. Jørgen Christian Larsen, Ph.D. Assistant Professor of Embedded Electronics University of Southern Denmark - Mr. Pitiwut Teerakittikul, Ph.D., Assistant Director for Student Affairs, Institute of Field Robotics (FIBO), King Mongkut’s University of Technology Thonburi
15.00-15.15 hrs.	Refreshments
15.15-17.00 hrs.	Wrap up
